The psychedelic krautrock band Lasse Reinströem are about to release their 6. album, '*Reinströem*' in 2023. Since establishing in 2009 they have developed their sound through numerous tours/live shows, releasing their last album 'Rasputiza' in 2020. They are part of Independent Rock Samplers like: Elbräume (A Dresden Rock Sampler), Wildblumenbues 2, Ox-Sampler Nr. 161 or Aldora Britain Recors Independent Music Sampler 144.

**Bandcamp** included LRS-Sound in their 2018 list of top ten German Hard Rock bands describing them as;

'Ranging from the southern fried classic rock of Lynyrd Skynyrd to the shrieking art-punk of Nina Hagen to Motorhead's busted muffler rock 'n' roll. Add in a hefty dose of sludgy alt-rock, and you have yourself a recipe for a good time—and some pretty potent rocket fuel'

Having performed more than 300 live shows across Europe, with bands such as; Stoned Jesus, Spaceslug, Dýse, Heroin Whores, Triggerkid and the Ending Man, Monstertruck, Arboretum, Lombego Surfers or Gorilla Monsoon, they have developed a knack for consistently whipping the audience into a frenzy which Urbanite described as:

'Their performances are anything but boring... dancing, moshing, singing and screaming....it will stop anyone in their path.'

While still drawing on the sound, this time with 'Reinströem' they have now managed to capture the full spirit of their renowned underground live shows. Slowly crafting this album and aiming for a darker direction, for the first time with 90% German lyrics, recorded and produced together with their former guitarist and music producer Scott McLean, funded by "Kulturstiftung Sachsen" the EP: REINSTRÖEM became a unique Krautrock / Post Punk gem.

LASSE REINSTRÖEM is a pure DIY band and cooperates with local friends and networks, such like Elbsludgebooking e.V., Oh My Music Publisher Anika Jankowski, Head Perfume Records Rene Seim; Electric Talon Records (USA) and many more...
